

dB Washing Machine Mat

All test data is site test data with suitable ceiling treatments & flanking paths removed.
For more construction details for the test results please contact the office.

TAKE THE VIBRATION OUT OF YOUR WASHING MACHINE

These acoustic mats have been designed to be laid under white goods such as a Washing Machine or Tumble Dryer to reduce the impact and airborne noise - ready to slide under the machine.

	Thickness	15mm
	Dimensions	0.6m x 0.6m
	Area	0.36m ²
